Price: 20.00 €

Slimming gel with marine algae

This slimming gel with algae **activates the microcirculation, moisturises and firms** the upper layers of the skin in a lasting way. Its caffeine and theophyline content **eliminates fatty deposits and restores a harmonious figure**. Thanks to its anti-cellulite action and its orange peel scrub, you will regain a smooth skin and a reshaped figure. Day after day, your figure is reshaped and your skin regains its elasticity and suppleness.

Tips for use : Apply the Slimming Gel morning and evening to the parts of the body to be treated, focusing on the thighs, hips and stomach. Massage in large circular movements from the bottom upwards for the legs and thighs. The gel is easy to apply and does not stick.

For more efficiency, the use of the Slimming Gel with Seaweed is recommended in addition to a slimming diet. We recommend our Silhouette Infusion and our food supplement Piokaline.

The slimming gel contains caffeine, it is not suitable for pregnant or breastfeeding women.
