"Retour de Plage" is enriched with SESAME BIO oil and a few very rare grains of fine, iodized sand from the Iroise coast.

It is perfumed by a synergy of organic essential oils of CADE, PATCHOULI and YLANG-YLANG. A woody and floral fragrance.

A sand-coloured soap designed to restore the feeling felt after a beautiful, bright and warm afternoon spent on the beach. Grayed with iodine and sunshine, the eyes still dazzled by the light on the sea.
