

## Joints Tali relaxation - Lithothamne

This remineralizing supplement is ideal against stress, muscular tension or digestive problems. 100 capsules.

**Manufacturer:** Thalado Comptoir des Algues

**Reference:** CAT

**Loyalty points offered:** 18

**Price:** 18.00€

### Tali - 100 capsules

Tali is an exclusive extract of Lithothamne, a red calciform algae that grows at great depth.

Exceptionally rich in calcium and magnesium (particularly well assimilated), it is the algae for **relaxation**. It also relieves **joint and bone pain or cramps**. Finally, thanks to its antacid action, it reduces acid and other heartburn upwelling and restore the acido-basic balance.

It is recommended in case of **stress, muscle tension, difficulty in recovery after exercise, bloating, difficult digestion**.

Tips for use : It is preferable to start the treatment with 1 capsule per day in the first week in the morning, 2 capsules per day in the second week, in the morning and at noon and then 3 capsules per day in the third week, in the morning, at noon and in the evening until the end of the pill box. In a 33-day cure. Not recommended in case of kidney failure.

### INGREDIENTS :

100% Lithothamnium powder (420 mg). Vegetable capsule: Hypromellose. May contain traces of fish, crustaceans, molluscs and products derived from them.
