Laminaria Body Wrap Alga Natura 190 gr

Laminaria Body Wrap Alga Natura

A body wrap provides both therapeutic and cosmetics benefits. The Body Pack is an extremely rich blend of micronized plants or seaweed formulated to create an unctuous and generous paste reflecting the vegetal wealth of the powder.

Combination of two seaweed for an intense shaping treatment

Seaweeds contain trace elements, iodine and mineral salts, necessary for refining treatments. The combination of Laminaria and Lithothamnium increases the slimming action during the treatment. Lithothamnium provides its minerals and marine salts, and promotes the break down and elimination of fat. The iodine contained in Laminaria has slimming properties and help scombat cellulite and fatty deposits.

Directions for use

250g for full body treatment.

Mix 250g of powder with 500ml of warm water until you get an homogeneous paste. Apply it with a spatula directly to the skin. Wrap the person in a plastic film and a warming blanket. Duration: 15 to 30 minutes.
